

# Digital Technology and Culture 338

Washington State University, spring 2008

Assignments due for: **Feb. 27, 2008**

## Assignments:

[ ] \* Prepare a 2-4 minute oral report on the perspectives of three media sources from different countries taking on the same international story, with at least two visual examples that show the differences in the coverage (web site displays are OK). **Post on Google forum what story you are working on, so there won't be duplication.**

- Structure of the report:  
Intro – Discuss what the story is about, why you chose to look at it and what media sources you examined.  
What you found – Objectively show at least two examples of the coverage, more if needed, that illustrate the different approaches to the story.  
What you learned – Interpret what you saw. What did you take from this exercise?

[ ] \* Work on blogs, with recent feedback from instructor in mind. Make significant progress, building up to the leap into original multimedia content that's coming soon.

## Readings:

- \* Roszak's "The Politics of Information," pgs. 156-171.
