Language, Texts and Technology

Washington State University, spring 2009

Assignments due for: **Feb. 18, 2009**

http://wsultt.blogspot.com/

Assignments:

[   ]   **Comic without words DUE (25 points).** Using the program ComicLife, (plasq.com; a 30-day free trial is available), create a six to 10 panel single page comic that translates your chosen passage of text into this visual format, using original or public domain imagery, only without including words or captions (do put your name and title of piece on it, somewhere, though).

Key components in earning the maximum points:

• Minimum six panels, maximum 10 panels

• Name and title are the only words on the page

• You tell the story of your passage of text through ***original or public domain*** imagery. That could include your own photos, own drawings or other artwork, or manipulation of imagery already in the public domain (http://commons.wikimedia.org/wiki/Main_Page, http://www.publicdomainpictures.net/, etc).

• When someone looks at your page, preferably printed in color, that person can understand what you are trying to say simply by following your images around the page.

Readings:

• Baetens, Illustrations, Images and Anti-Illustrations, pp. 179-199.
