

**Digital Technology and Culture 375**  
**Language, Texts and Technology**  
Washington State University, spring 2009

Assignments due for: **Feb. 25, 2009**

<http://wsultt.blogspot.com/>

Assignments:

- [ ] Work with your audio teams on developing a story or anecdote, one that will be remediated from an original text, pre-1923 or without copyright. The first step is to choose the story together. Then imagine how you will record it, what equipment you will need, what effects you will incorporate, and how you will give it layers of sound, use appropriate dialects, etc. Then reevaluate if this is the piece you really want to do. If so, go for it.

Reading:

- Audio Culture, pp. 55-58, 65-81 and 94-97.
