Digital Technology and Culture 375

Language, Texts and Technology

Washington State University, spring 2009

Assignments due for: **March 25, 2009**

http://wsultt.blogspot.com/

Assignments:

[ ]   **Review readings and lecture notes in preparation for Quiz No. 2**; all of the material presented and covered from Feb. 11 to March 25 is potential fodder, including lectures, readings, class blog posts and class discussions.

[ ]   **Finish review of the literature related to your research project. --** Each member of the group by this point should have provided at least two academic articles that closely relate to the research you are going to do. Overall, one of those should provide the model upon which your research will be built. Each member of your group should have completed whatever tasks are needed to move on to the research stage.

[ ]   **Your experiment should be ready to roll. --** All of the kinks in the process should be worked out by this point and the materials should have been created, ready for implementation. You should have done a couple of trials to make sure your research will work as planned. You should know how and when you are going to conduct the experiment.

Reading:

•   Berger's Ways of Seeing, pgs 129-144.
