**Besides a good grade, what do you really hope to gain from this class?**

A great experience A greater understanding of language within technology and its overall application. some insight as to how communication has and is evolving. I learned alot of things I didn't know I was going to learn from your previously taken coarses. So I guess those are the things I am looking forward to most. I hope to gain a greater understanding of language and its role within society, and how it is incorporated into technology and culture. I just hope to use what I know and expand. I like being a Swiss Army knife, the ability to do anything. A new outlook on how language and technology ...

**Complete this sentence: "At the end of the semester, I will think this class was worth my time and effort and tuition if ..."**

1/12/2011

Edit form - [ CMDC 375, spring 2011, ...

I have learned a lot and enjoyed it I am more informed, and have more applicable skills. I understand what communication skills are needed in real world jobs today and in the near future. I learn at least 4 or 5 new things. I feel like I have a greater understanding of the topic presented, and also have applicable skills and knowledge that I did not have before. I have gained skills I can utilize to construct a portfolio. I have a project that I can put into my portfolio. I learn what is efficient in language with text. I am able to adequately use technology I never knew I could, and if I had a fun ...
