

Digital Technology and Culture 375

Language, Texts and Technology

Washington State University - Vancouver, spring 2010

Assignments due for: **April 21, 2010**

<http://ltspring2010.blogspot.com/>

[] **Continue work on your Audio Project:** By this point, you should have your script just about ready to record, rehearsed your parts and collected all of your Foley effects, background music, etc. We will be doing a final dress rehearsal on this night.

[] **Prompt 5:** Your Google group post (*500 words, minimum*) will discuss, analyze and make predictions about an emerging technology that you think will significantly change the ways in which we view and use language and/or texts and/or communicate with each other. ***Please include at least two links of reference.***

Reading:

Palfrey and Gasser, "Overload," 257-269.
