

Digital Technology and Culture 375

Language, Texts and Technology

Washington State University, spring 2010

Assignments due for: **Feb. 24, 2010**

<http://ltspring2010.blogspot.com/>

[] **Prompt 2: Gather and share academic articles about your research subject (20 points) –**

Find *two peer-reviewed academic articles* (not from the mass media) that *support and inform* your group's work on the Research Showcase project. (If you have questions about if a journal is academic, it is your responsibility to ask well before the Feb. 24 deadline. In short, if the work doesn't go through a peer-review process before publication, it is not eligible. Some conference papers could qualify.)

You should read these articles and post to the Google group the following for each (*in separate posts, but in the same thread*):

[] A single sentence describing your group's project. (Don't just copy what others in your group have written; try to summarize it yourself).

[] An APA citation of the article, with a direct URL link to it

[] A rationale for *why you chose the article* (250-words minimum), *including* the helpful insights it offers as well as connections it makes to your group's project and the larger discussions we have been having about mobile technology.

Readings:

Bolter and Grusin, p. 133-164 of the course pack.
