Language, Texts and Technology

Washington State University - Vancouver, spring 2011

Assignments due for: **April 6, 2011**

<http://ltspring2011.blogspot.com/>

[] **Research Showcase –**

If your group took advantage of the extra iteration round, bring the final poster draft to class.

[] **Create a rough first draft of your script, even if it's very rough**

Getting this first draft down on paper, coalescing your ideas as a group into a tangible form, as rough and messy as the draft can be at this stage, is a major roadblock to success. Figure out ways, as a group, to get through this stage by **April 6 (25 points)**. You should bring to class the script that your group wants to work on for the final Audio Project (for more information about the larger effort, see the Audio Project guidelines on the class blog, under Assignments DUE).

Reading: Bolter and Grusin
