## Language, Texts and Technology

Washington State University, fall 2009

Assignments due for: **Nov. 18, 2009**

<http://lutfall09.blogspot.com/>

[ ] **Prepare for Quiz 2**

[ ] **Continue work on your mobile project**

[ ] **Gather two peer-reviewed academic articles to support your group's work on the mobile project** – These must come from academic journals, not mass-mediated sources. (If you have questions about if a journal is academic or not, it is your responsibility to ask before the Nov. 18 deadline.) You should read these articles and be prepared to discuss them with your group. One of these two can be used for Prompt 8.

AND

[ ] **Prompt 8 (10 points)** – Bring to the class -- via a Google group post – an APA citation of a peer-reviewed academic article (from an academic journal, not from the mass media) that directly relates to the work you are doing with mobile technology but also might be helpful to those involved with the other mobile projects in this class. This post should include a link directly to the article as well as a rationale (250-words minimum) for why you are sharing it and what you think it offers to our larger discussion about mobile technology. You should be prepared to talk about this article in depth.

### Readings:

[ ] Kac, pgs. 181-214 of your course pack.
